Re: Patent department / patent withdrawal & delete

24th of February 2005

Dear Sir & Madam,

I'm the primary inventor of the patent application US20040260712. It is in my awareness that the principle has been presented in publicity 6 months before the initial date of the application in Finland. This may well mean that it is not an innovation to be applicable for a patent in the USA either. I would like to cancel the patent application.

Kind regards,

Hannu Kulju
